Details

Lyra was designed by the Design Group Italia for renowned Italian furniture specialist Magis.

These walnut top tables rest on sculptural tapered chrome legs.

Magis is a company born in the province of Treviso Italy in 1976, thanks to the intuition of Eugenio Perazza and it is today one of the most influential brands in the world for the production of furniture for every room of the house.

There's a plaque on the top and a stamp on the bottom of each table.

The tables are lightweight, easy to move from room to room.
