## Details

These highly comfortable folding chairs are made of solid walnut, and they deserve the slogan written on the label under their seat: You'd have to be told.... they fold".

They feature padded seats and backrests for comfort and are upholstered in sleek lizard pattern Naugahyde. Naugahyde is an American brand of artificial leather.

Unlike usual folding chairs, these are very comfortable, well-designed, and elegant! They were produced right around 1960.
