## Details

The artwork titled "Bearded Laddie," signed Marso 1988 evokes a panel of emotions. The pastel tones lend an air of softness to the piece, but it is the cubist style that truly captures my attention. The way the two men are depicted, with their angular shapes and fragmented features, and how the hairs are shared like waves create relief, peaks, and troughs like our emotions. The title "Bearded Laddie" is adding to the mystery of this image and the ambiguity of these two characters. The artwork seems to be signed by Mat So. Unfortunately, no information is available for this artist, but the lithograph is numbered (3/20)
