Details

This mini table lamp has a sleek black base with three gracefully curved legs in the same flat black finish as the lamp's body and shade.

The shade features a unique pattern, with hollow stars scattered across its surface. These stars, each meticulously crafted, are filled with broken glass. The broken glass technique involves layering multiple sheets of glass, with the innermost layer intentionally shattered. The result is a mesmerizing effect where the broken glass pieces fill the hollow stars, creating an illusion of depth and texture.
