## Details

Mosaic-like, this piece is semi-abstract and compact yet very simple. The colors used are playful.

It seems to show us someone turning the pages of his life. On the left, you can notice a face profile, and on the bottom corners, you can see two hands.

The texture is made with sand, similar to Williamson's other piece I have listed titled "Love at First Sight"

Jerry Williamson (1926 - 2016) was active/lived in California, Washington / France. He is known for Portrait painting, street performers, and sometimes abstracts.
