Details

Using tonal value to define shape, light, perspective, and movement, the artist's clean-lined accuracy, and simplicity enhance a fascination with this stylish piece.

It is encased in a similarly slick solid walnut frame. You can hang this contemporary abstract painting vertically or horizontally. The artist made two holes in the back for this purpose.

Henri Laborde, one of the finest French restorers on the West Coast, created this complex and structural black & white acrylic abstract painting on a black background.

Great for interiors with a minimalist, glam, or industrial aesthetic - and much more. Great for office spaces and parts of the home where you need just the right amount of visual detail minus the overwhelming color.
