Details

This set of six Danish Dining Room Chairs was crafted in the 1970s by the Danish manufacturer Dyrlund. They embody the essence of Danish mid-century modern aesthetics.

Dyrlund, a trailblazer in the mid-century modern movement since its founding in 1960, has left an indelible mark on furniture design. They started in the 1960s but these chairs' very minimalist lines remind us of the 1950s era. Their backs' slope makes them extremely comfortable.
